

# GFS Experience

Let's face it – A lot of computer programs that are supposed to save you time, just plain don't. You do a lot of fooling around learning them, they're complicated to run, and they're only of limited use. At Gordon Food Service, we believe you have better things to do with your time and energy. So, as we've been designing our e-business solutions, we've kept one thing in mind. This is a tool and, like any other tool, it's all about simple and useful

## ***"A precision foodservice tool built with you in mind"***

- Place an order 24hrs a day 7 days a week (Established ordering deadlines apply)
- Place your order from anywhere you have an Internet connection
- Place an order up to 30 days in advance for a Scheduled Delivery Day

## ***"What you want when you want it"***

- Place orders by using your own personal Order Guide, by entering codes, or by browsing through our Catalog
- Create Templates from which to order from, or select items from an order placed previously
- Review your current and past orders with a click of a button
